A positive sign denotes an increase in assets and liabilities; a negative sign denotes a decrease in assets and liabilities.

Equity (acquisition/disposal of shares and equities in cash and contributions in kind by non-residents in/from the capital and reserves of Bulgarian enterprises, and receipts/payments from/for real estate deals in the country) amounted to EUR 298.2 million in January – September 2016. It fell by EUR 642.3 million in comparison with that attracted in January – September 2015 (EUR 940.5 million).

¹ Preliminary data. The data for January – September 2016 are to be revised with the October 2016 report. The 2015 and 2016 data are subject to revisions with the annual NSI data and reports from foreign direct investment enterprises.

² GDP amounting to EUR 45,474 million for 2016 (BNB forecast), and EUR 45,285.8 million for 2015 (NSI data as of 11 October 2016).

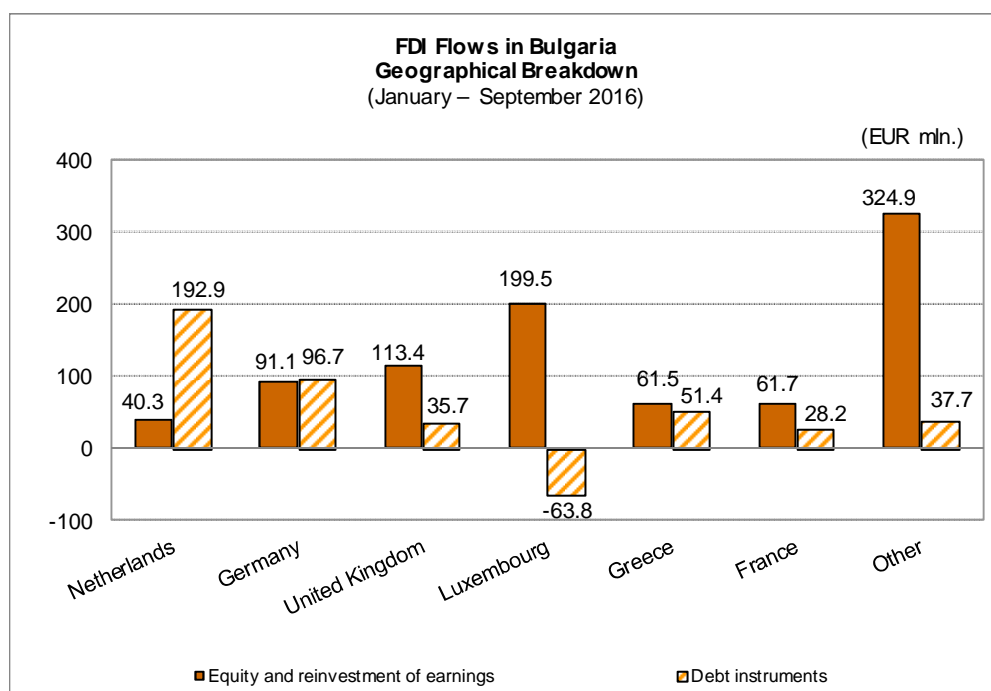

³ When comparing the data year-on-year it should be taken into account that the initial FDI data for January – September 2015, published in the BNB press release on 16 November 2015, have been subsequently revised (www.bnb.bg, section Press Office/Statistical Press Releases/Balance of Payments).

Real estate investments of non-residents totalled EUR 53.6 million, compared with EUR 46.8 million attracted in January – September 2015. The largest inflow of real estate investment was from Switzerland – EUR 22.7 million (42.4% of the total amount for January – September 2016), Russia (EUR 6.6 million, 12.3% of the total amount for the period), and Norway (EUR 6.1 million, 11.4% of the total amount for the period).

Reinvestment of earnings (the share of non-residents in the undistributed earnings/ loss of the enterprise based on preliminary profit and loss data) was estimated at EUR 594.2 million for January – September 2015, compared with EUR 610.8 million in the same period of 2015.

The net *debt instruments* (the change in the net liabilities between affiliated enterprises on financial loans, suppliers' credits and debt securities) were positive amounting EUR 378.8 million in January – September 2016, compared with a positive balance of EUR 59.1 million in January – September 2015⁴.

The largest net direct investment inflow in Bulgaria for January – September 2016 was from the Netherlands (EUR 233.2 million, 18.3% of the total amount for the period), Germany (EUR 187.8 million, 14.8%), and the United Kingdom (EUR 149.1 million, 11.7%).

According to preliminary data, *direct investment abroad* totalled EUR 107.2 million in January – September 2016, compared with an increase of EUR 44.7 million in January – September 2015. In September 2016 it grew by EUR 8.7 million, compared with an increase of EUR 23.4 million in September 2015.

⁴ The data on *debt instruments* are based on preliminary information from foreign direct investment enterprises on credits extended/received to/from nonresidents. The data for 2014 and 2015 are subject to revisions with their quarterly and annual reports.
